Homecraft

THE DETAILS

Everything else worth knowing before your sauna arrives.

Warranty

Every sauna includes a 12-month limited manufacturer warranty covering structural components and workmanship. Each unit is built by hand in Washington state. If anything arrives damaged or doesn't function as it should, our team helps resolve it quickly.

Delivery & Electric

Your sauna arrives as a finished unit. A local mover or equipment operator is required to receive the shipment and set the sauna into its final position. If you've selected an electric heater, a licensed electrician will complete the hookup. We stay involved throughout and can help coordinate or recommend trusted local contractors. **Delivery and electrical hookup are not included in the sauna price.**

Financing

Investing in your dream space shouldn't feel daunting. We've partnered with leading financiers to offer flexible, transparent options so you can plan long-term without the upfront pinch.

- Applications valid for 60 days after approval
- Apply when your project start date is within 60 days
- Deferred-interest and same-as-cash promotional loans available
- Standard long-term loans begin payment after project completion
- Ask your estimator about change order funding

Need Something Custom?

If none of our three signature builds fit your vision, we also build fully custom saunas. Tell us what you're after and we'll design and build it from the ground up.
